AUDIO TECHNICIAN – RADIO & MICROPHONE / RADIO CITY (m/f/d)
Full-time, fixed-term position (48 hours/week)

Are you an experienced sound technician, passionate about audio, with expertise in wireless systems, microphones, and monitoring systems? Do you love live entertainment and want to join our touring team? Then become part of our team at **System Provider Eventmanagement GmbH**.

YOUR RESPONSIBILITIES

- Set-up, monitoring, and operation of wireless systems, microphones, and in-ear monitoring systems (Radio City) during rehearsals and performances.
- Fitting performers with microphones before shows and rehearsals.
- Monitoring and adjusting wireless and wired microphones during performances.
- Working closely with Stage Management and FOH to ensure optimal sound quality.
- Conducting soundchecks and technical tests prior to rehearsals and shows.
- Ensuring the proper functionality of all wireless equipment and microphones, including troubleshooting minor technical issues.
- Coordinating with the crew during the set-up and dismantling of wireless and microphone equipment.
- Documenting settings, technical issues, and special occurrences.
- Complying with all safety regulations when operatirn the equipment.

YOUR PROFILE / QUALIFICATIONS

- Completed training or several years of experience in sound engineering, wireless systems, and microphone management
- Experience in monitoring and operating wireless monitoring systems (e.g., Radio City)
- Experience in musicals, theater, or touring productions preferred
- Solid knowledge of wired and wireless audio systems
- Experience in fitting and micing artists / performers
- Strong technical affinity, problem-solving skills, and the ability to work under pressure
- Team player with flexibility in working hours
- Very good command of German and/or English

WHAT WE OFFER

- Fair and competitive remuneration, including applicable allowances.
- Paid overtime
- All travel and accommodation expenses covered
- A committed and professional team
- Opportunities for professional development and a unique live-stage experience.
