HEAD OF SOUND DEPARTMENT - FOH OPERATOR / SOUND ENGINEER (m/f/nb)
Full-time, fixed-term position (48 hours/week)

Are you a passionate FOH operator with a strong affinity for sound, experienced in audio engineering and enthusiastic about live entertainment? Do you want to lead a team on tour for a musical production? Then join our team at
System Provider Eventmanagement GmbH.

YOUR RESPONSIBILITIES

- Operate and monitor the FOH console during rehearsals and performances
- Set up, configure, and maintain the sound system at each venue
- Mix vocals, instruments, and effects during performances
- Working closely with the Technical Director, Stage Management and Backline team to achieve optimal sound quality
- Conduct soundchecks and technical tests before rehearsals and shows
- Document settings, changes, and technical details
- Coordinate with the crew during load-in and load-out of the sound system
- Lead and coordinate the sound engineering team during rehearsals and performances
- Ensuring compliance with health and safety regulations when operating sound equipment

YOUR PROFILE / QUALIFICATIONS

- Solid training or several years of experience in sound engineering / FOH operation
- Experience in leading and coordinating a team, ideally in musicals, theater, or touring productions
- Strong knowledge of signal flow, mixing, and audio equipment
- High technical understanding and problem-solving skills
- Resilience, flexibility, and strong teamwork skills
- Excellent German and/or English language skills

WHAT WE OFFER

- Fair and competitive remuneration, including applicable allowances.
- Paid overtime
- All travel and accommodation expenses covered
- A committed and professional team
- Opportunities for professional development and a unique live-stage experience.
